Effective Teams are critical to the success of leaders, families, and organizations. A team is a diverse group of individuals working toward a common goal(s). As teams develop over time they realize the importance of individual contributions, loyalty, and execution.

Great teams evolve through effective leadership, the team working as one, and most of all the importance of communication and appreciation.

As your team develops, remember:

**Communicate
Communicate
Communicate**

and

**Appreciate
Appreciate
Appreciate!!!**
